

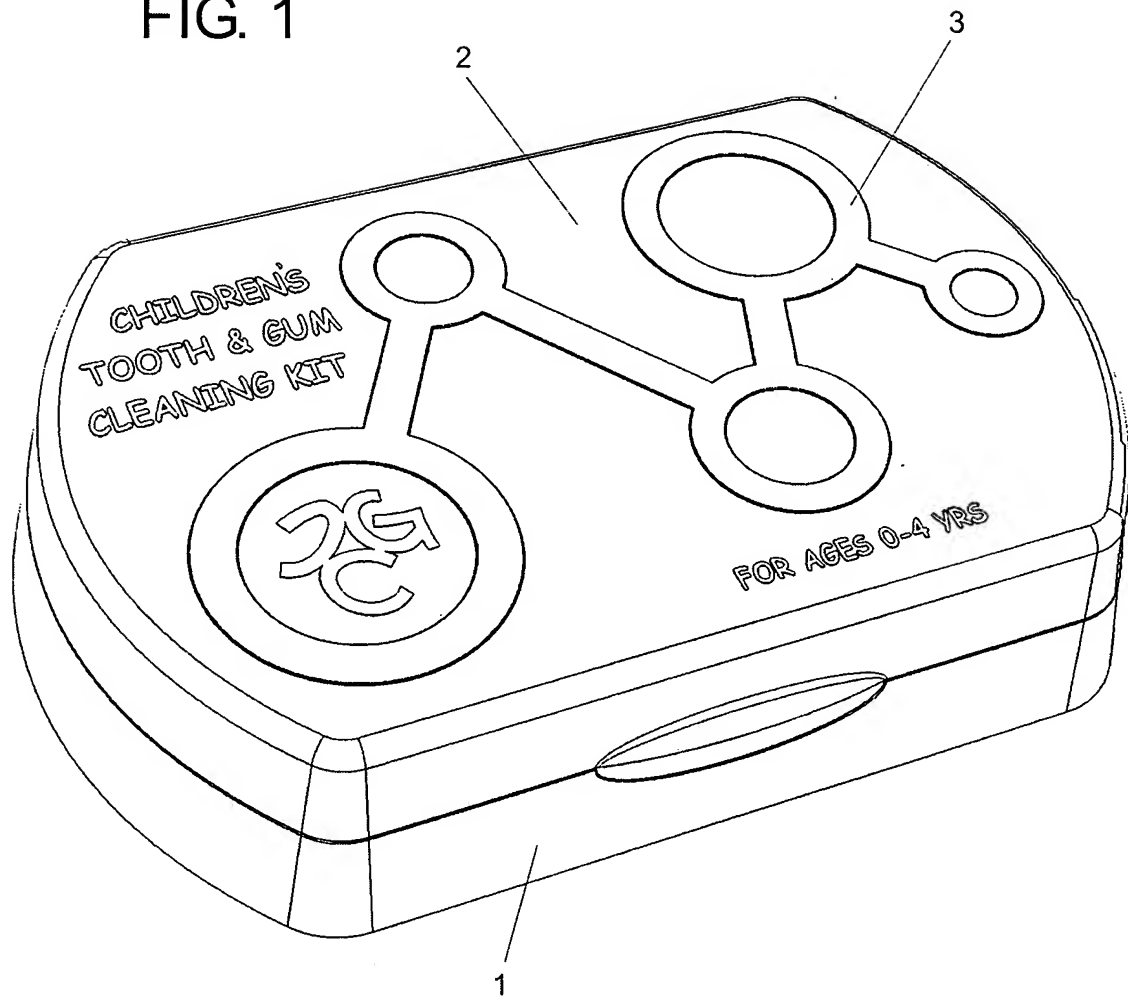

FIG. 1

This diagram shows an exploded perspective view of a dental instrument case. The case is open, revealing the interior of the lid (2) and the base (1). The base contains a tray (17) with multiple compartments. On the left side of the base, there are two compartments (4 and 5) containing dental instruments (6 and 7). The right side of the base features a row of compartments (8) containing dental instruments (9). The lid (2) has a row of compartments (10) containing dental instruments (11). The base also has a row of compartments (12) containing dental instruments (13). The lid (2) has a row of compartments (14) containing dental instruments (15). The base (1) has a row of compartments (16) containing dental instruments (17).
